THE CIRCLE L RANCH SHORTHORN HERD IS BEING DISPERSED.

The Shorthorn industry will miss this herd, yet it will be the gain of many established and new herds.

This herd is and always has been a real cattleman's herd. Well bred, uniform, exceptionally productive, of ideal type and conformation, yet one of the most practical of any beef herd to be found. Further, it has been developed and always handled under practical farm conditions yet has competed with and always held its own with the best.

I have known Dewey Lunstra for over forty years. I have been familiar with the Circle L herd from the day Dewey bought his first Shorthorns over a quarter century ago, and have watched it grow and develop. No herd foundation was ever laid on a sounder basis. No herd was ever developed on a more continuous progressive, constructive basis by a real cattleman.

I know that Dewey Lunstra's comments in this catalog are very modest. However, it is unnecessary for me to elaborate because the record of the herd in the show ring, in its three previous sales and consignment sales, and the large number of satisfied customers is common knowledge.

Also, nearly everyone in the Shorthorn industry knows that Dewey Lunstra has been one of the breed's best boosters, always willing to help and willing to bid and boost at any sale.

The herd is now definitely at its peak of production and condition, therefore, one of the rare great dispersions.

Many have seen this herd in its natural surroundings at the Ranch. However, it behooves everyone to study this catalog carefully. It is a good lesson in animal breeding. Then come to the sale and see this offering for yourself.

ALBERT J. HAMANN, Sale Manager

THERE comes a time when all of us must leave the field of our chosen business.

Such a time has come to Circle L Ranch. When we established this herd and operation twenty-six years ago our aim was to establish a large herd of Shorthorns on a grass farming operation. This we have strictly adhered to with the help of our family. Now most of the members of our family have embarked on careers of their own, as they should, or are fulfilling their military obligations and completing their education. It leaves my good wife and I nearly alone in the operation. However, age, time and health demand their toll. Therefore, we realize that if we wish to sell the herd while it is at the very peak of production, as this catalog will attest, we must do it now.

We love Shorthorns and Shorthorns have been good to us. They have paid for and built Circle L Ranch. They have furnished the means of rearing and educating twelve children. We value highly the friends and contacts we have made in the entire industry. For this, we will always be grateful.

Sincerely, we regret to part with our breeding herd. We have always culled ridgedly. If any did not produce up to standard we did not keep them. We have continually been willing to add a new herd sire or an improving female at any time or any place. In this way we have developed the kind of herd we aimed for. We are proud of the record our productions have made in strong shows and the way they have been accepted in our own three previous sales and many consignment sales.

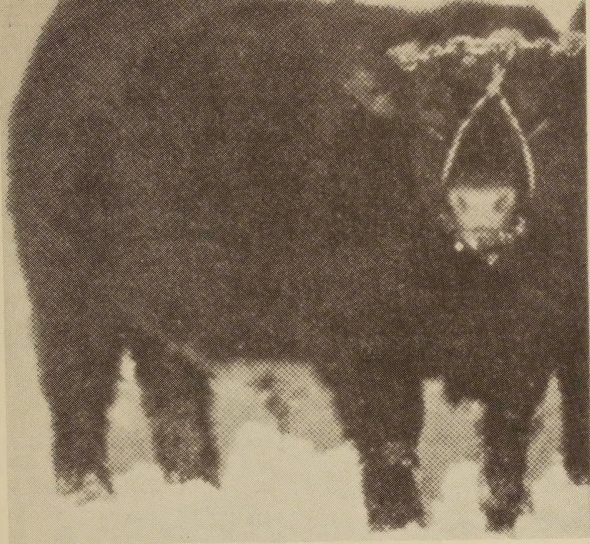

We are proud that our productions have done well for others and made friends whether in the hands of good breeders, ranchers, farmers or 4-H club boys and girls. We are proud of many 100% or nearly 100% calf crops that our herd has produced in the last quarter century.

Therefore, we cordially invite you to attend our sale because we honestly feel that we are selling the kind of well bred, high quality, rapid producing Shorthorns that will be a profitable investment for you as they have been for us.

We ask you to study this catalog carefully which shows the continuing generations of improving ancestry. For those who have not previously visited Circle L Ranch, come and inspect the herd before sale day. You will be most welcome.

We trust you will make plans to be with us sale day.

CIRCLE L FLOSSY LOUISA—A heifer of all imported breeding that will be a little thin in flesh because she was intended for a foundation female. By a good sire and out of the great imported cow Flossy Lass, that sells, no one can go wrong on this heifer. In addition, she will be exposed to the service of the rugged Melbourne Jupiter in August.

CIRCLE L ROSEWOOD CHARM—A young but very good heifer that is bred in the purple. She is sired by Louada Jason, the International reserve champion bull, and her good dam that sells is by the \$8,000 International Congress champion bull, Kinellar Refiner. Note all the other great sires in her pedigree. Because she is too young to breed, she will sell open.

STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
